

FROST FAIR ART TRAIL

Activating the Augmented Reality

1. Download the FREE **Graff.io** app on [Apple](#) or [Android](#)
2. Open the app

3. Select Bankside's Frost Fair from the menu

4. Point your viewer at our murals and posters along the trail to see them come to life.

PLEASE NOTE:

If some of the works aren't working with your AR app, it can sometimes help shutting the app down and reopening it, as this can reconnect the app, which can sometimes be affected by the surrounding built environment.

Please be patient as sometimes it can take a minute for the AR to load.
